

Charitable Donation Update

MND Association

As part of our ongoing commitment to supporting charities through our Charitable Metal Recycling Scheme, we were delighted to donate £10,000 to the Motor Neurone Disease (MND) Association Mid-Kent Branch, nominated by our Garden of England team.

The Mid-Kent Branch is part of a nationwide network of MND Association Branches and Groups providing local support to people living with MND, as well as their families and carers. The Branch is supported entirely by volunteers, including Association Visitors who provide advice, information and a listening ear to those affected by the disease.

A key focus of the Branch is its Peer Support Groups, which provide a welcoming space for people living with MND, carers and bereaved carers to meet others, share experiences and access support. The groups offer opportunities for socialising, complementary therapies and activities including quizzes and talks, as well as the all important tea and cake!

Many people living with MND describe these groups and therapy sessions as a “lifeline”, providing friendship, understanding and a sense of community at a particularly difficult time. The Branch also provides dedicated support for carers and bereaved carers, helping families to remain connected and supported throughout their journey.

Our £10,000 donation will help the Mid-Kent Branch continue funding these important groups, ensuring that people living with MND, their carers and bereaved families can continue to access this vital support both now and in the future.

We are proud that our Charitable Metal Recycling Scheme can turn recycled materials into meaningful support for charities and the communities they serve. We would also like to thank our Garden of England team for nominating the MND Association Mid-Kent Branch.

One of the MND Association's support groups for people living with MND, held at the Wisdom Hospice.
